**Another way for patients with
Horizon NJ Health & AmeriGroup managed Medicaid health insurance
to remain in our care (new 7/27/20)**

Some of our managed Medicaid patients have been able to change their managed Medicaid insurance to the United Healthcare Community Plan, also known as AmeriChoice., which we continue to accept.

At this time this is the only NJ managed Medicaid plan we will continue to accept. The reason is that it's the only one that pays us for the time it takes for us to deliver the best outcomes to our patients. We need this time to get those results, as most of you know from personal experience, because patients tend to be referred to us when they fail to respond to standard "cook-book" care by other physicians. We need that time to figure out why you (you being each individual patient) didn't respond well to previous treatment, to work with you to develop management plans we think are likely to solve those problems, and then follow up closely enough to see how well those plans actually work and then work with you to change them if they still aren't working as well as we'd hoped.

If you can switch your Medicaid coverage from Horizon NJ Health or AmeriGroup to the United Healthcare Community Plan of New Jersey, also known as AmeriChoice, we can accept that insurance for your care

Note that AmeriChoice is a DIFFERENT health insurance plan from AmeriGroup. We DO accept AmeriChoice, which is the other name for the United Healthcare Community Plan. We do NOT accept AmeriGroup, which is run by a company called Anthem.
